# TABLE OF CONTENTS

Acknowledgments  
List of Figures  

1. Introduction  
   - Aims & Objectives  
   - Who Should Read This Book  
   - Using this Book in Context  
   - What is academic research?  
   - On Divides Real & Imagined  
   - Key Concepts and their various uses  
   - Chapter Organization  

PART I – Divides & Designs  

2. Putting Research into Perspective  
   - Introduction  
   - Key Elements of a Research Project  
   - Looking Ahead: Milestones, Destinations, & Expectations  
     - What is a Dissertation/Thesis?  
     - What is a Research Proposal/Outline?  
   - What is Originality?  
   - Getting Started - Deciding a Topic  
   - Theory and Method - Of Carts and Horses  
   - Concluding Comments  

3. Research in Practice: First Steps in Project Design  
   - Introduction  
   - Main Stages in a Research Project  
   - Work-Plans & Proposals  
   - From Research Topic to Research Question or Hypothesis  
   - On Science, Worldviews, and other Brainteasers  
   - Other Practical Matters  
     - Recognizing and Setting Your Limits  
     - Research Ethics and Codes of Practice: More than ticking boxes  
     - The Supervisory Relationship  
   - Methodological Coping Strategies - Plotting a Course  
   - Concluding Comments
4. The Politics of Research: Living with Your Choices
- Introduction
- Doing Research Today: Location, Location, Location
- Literature Searches and the Literature Review
- Historical & Philosophical Note
- Purpose and Categories of literature reviews
- Practicalities
  - Pitfalls
  - Rules of Thumb
  - Process & Product
  - Finding the literature; the web or library?
- Sources & Resources that matter
  - Acknowledging Sources
  - What is plagiarism?
- Research Communities & (Multiple) Disciplinary Identities
- Concluding Comments

5. Internet Research Skills & Online Research
- Introduction
- Setting the record straight
- Back the Future: A Quick Prequel
- The Internet as resource
- Online data-gathering & analysis & Digital Tools
- Online Research: Fields, Relationships, Ethics
- Web-Analysis: Sites, maps, and hypertexts
- Summing up

PART II – Coping & Communicating

6. Doing Research - Gathering Data
- Preamble: Introduction to Part Two
- Chapter Aims and Organization
- Data-Gathering Techniques - Review
- Surveys & Questionnaires
- Interviews
- Focus Groups
- Ethnographic Fieldwork & Participant-Observation
- Summing Up - Repositioning the Divide
7. Doing Research - Analysing Findings
   - Introduction
   - What is analysis?
   - Working with Texts
     - Content Analysis
     - Textual/Visual Analysis
     - Discourse Analysis
       - Deductive and Inductive Paths to Knowledge
   - Behaviouralism & its Discontents
   - Data-Analysis as Process and Product
   - Concluding Comments

8. Writing it All Up and Going Public
   - Introduction
   - What is academic writing?
   - Writing Formalities - Citation & Styles Guides
   - Feedback - Examinations & Going Public
   - Procrastination and Prevarications
   - Coping and Moving On - Creatively
   - Revising and Editing – what to look for
   - The Final Cut - What to remember

9. In Conclusion
   - Reappraising Divides Imagined and Real
   - To the Exit and Afterlife of a Research Project
